

HOUSING AUTHORITY OF THE COUNTY OF LACKAWANNA

In Re: Commissioners Regular Meeting

TRANSCRIPT OF PROCEEDINGS

BEFORE: Paul Walker, Chairman

Patrick Padula, Executive Director

DATE: August 13th, 2026

PLACE: Lackawanna County Housing Authority

Administration Building

2019 W. Pine St.

Dunmore, PA 18512

APPEARANCES:

Rocco Valvano, Esquire

MARIA McCOOL

OFFICIAL COURT REPORTER

1 (Pledge of Allegiance.)

2
3 MR. DORUNDA: Welcome to Thursday,
4 August 13th, regular meeting of the
5 Commissioners. Roll call.

6 MR. PADULA: Mr. Walker.

7 MR. WALKER: Present.

8 MR. PADULA: Mr. Dorunda.

9 MR. DORUNDA: Present.

10 MR. PADULA: Mr. Wallis.

11 MR. WALLIS: Present.

12 MR. PADULA: Mrs. Nealon is absent
13 tonight. Mr. Padula is here. Attorney Valvano
14 is absent tonight. He's available by phone if
15 we have any legal questions. Mr. John
16 Prislupski.

17 MR. PRISLUPSKI: Present.

18 MR. PADULA: Miss Felicity Schultz.

19 MS. SCHULTZ: Present.

20 MR. PADULA: Miss Denise Delvecchio.

21 MS. DELVECCHIO: Present.

22 MR. PADULA: Mr. Joe Incelli.

23 MR. INCELLI: Present.

24 MR. PADULA: And Mr. Michael Fendya
25 from TEN's representative. Thanks for coming.

1 Approval of Minutes:

2
3 A motion to accept the minutes of the July 9th, 2026
4 meeting was made by Mr. Wallis and seconded by Mr.
5 Walker.

6
7 All Board Members present voted in favor.

8 MR. DORUNDA: Approval of the
9 vouchers, Patrick?

10 MR. PADULA: As you guys know in
11 your packet, it states all the vouchers that we
12 paid for a month. And when we use the word
13 voucher, it's basically just what we had paid
14 out for the month of July.

15 And if you see large expenditures on
16 there, I'm sure it's probably for the TEN
17 Group, which is true, approved contract through
18 the board and some large -- will be also
19 probably for some capital fund expenditures
20 that we have. John, do you want to add
21 anything out of the your ordinary for the month
22 on that?

23 MR. PRISLUPSKI: No, just that it
24 came through the loan.

25 MR. PADULA: That's a good point.

1 Go ahead, please.

2 MR. PRISLUPSKI: So the payments to
3 TEN for the energy performance came through our
4 loan from People's Security Bank.

5 MR. PADULA: The application process
6 of the application process was borrowing the
7 money, submitting payment apps through the
8 bank, and then that's all that goes. There was
9 some large ones that we just put out. I think
10 everybody kind of should recall that. But
11 that's what they were.

12

13 Approval of Vouchers:

14

15 A motion to approval the vouchers was made by Mr.
16 Wallis and seconded by Mr. Dorunda.

17

18 All Board Members present voted in favor.

19

20 Public Comment Period:

21 None.

22

23 MR. DORUNDA: Report of the
24 Treasurer.

25

Report of Treasurer:

1 A motion was made by Mr. Walker and seconded by Mr.
2 Wallis to accept the Treasurer Report.

3
4 All Board Members present voted in favor.

5
6 RESOLUTION #4557

7
8 Authorizing the Executive Director to certify the
9 yearly SEMAPS submittal.

10
11 MR. PADULA: So does everybody
12 recall what our SEMAP is? I know everybody
13 understands it, but just to put on the record.
14 So at the end of the year our Section 8
15 Program, we submit there's 13 indicators that
16 we fall under, and we submit through HUD.

17 And SEMAP is actually Section 8
18 Management Assessment Program. That's what the
19 SEMAP stands for. We submit it to HUD that
20 we're in compliance with those 13 indicators.
21 Once we do that, HUD comes back with a
22 self-scoring grade. We comply. They give us a
23 grade.

24 They'll send Paul Walker a letter of
25 the grading. They'll say your PHA, Housing

1 Choice Voucher Program scored this score. We
2 expect to be a high performer. We were the
3 last few years. So what happens with it is,
4 we'll get a resolution from the board.

5 We'll have that resolution and any
6 type of documentation that we submitted to them
7 that they could come back in and do an audit.
8 Now I think this year is a Section 8
9 concentration for our audit. And then we're
10 subject to an audit or any type of review
11 through HUD at any time.

12 We have no problem. We welcome that
13 because we're comfortable on supporting
14 documents that we do.

15 So if you guys just make the board
16 resolution tonight, I will certify it. I think
17 I actually may have already certified it. But
18 it's just kind of routine. But I want to bring
19 it up to you guys because I have to have it in
20 at a certain time. We load it all up into the
21 PIC System.

22 And then I will certify everything
23 that we put into it. So that's with board
24 approval tonight, we'll have the resolution in
25 our binder. We won't submit the resolution to

1 HUD. But we need to just have it if somebody
2 requests it.

3
4 A motion was made by Mr. Wallis and seconded by Mr.
5 Walker to authorize the Executive Director to certify
6 the yearly SEMAPS submittal.

7
8 All members present voted in favor.

9
10 RESOLUTION #4558

11
12 Authorizing the write-off collection loss balances for
13 vacated residents.

14
15 MR. PADULA: In your packet you will
16 find correspondence from Agency staff members
17 requesting authorization to write off the
18 balances left from former residents upon
19 vacating. All of these have not have any
20 activity for a period of two months.

21 With board approval, the appropriate
22 staff will take the necessary measures to write
23 off these account balances. We absolutely need
24 to write them off of our books because it has
25 an impact -- and I'm going to give this little

1 section to John. That does have a negative
2 impact on the Agency of not collecting.

3 I don't want you just to think it's
4 just a normal resolution because that's what we
5 could think. But, John, tell us the impact of
6 our not collecting rent.

7 MR. PRISLUPSKI: It affects our
8 financial scores. And they give us like a
9 certain range. And if the receivables are up
10 too high, we're not collecting them, We get a
11 much lower score. We're not a high performer
12 then in that specific area.

13 MR. PADULA: So I want them to be
14 aware of this. It counts as a payable for us,
15 right?

16 MR. PRISLUPSKI: It counts as a
17 receivable.

18 MR. PADULA: A receivable. So what
19 happens is, we're not getting credit
20 for -- they're taking our dollars off us. And
21 it's just part of us trying to be better
22 managers to collect as much as we can. John,
23 how are we doing on rent collections? Are we
24 getting better with that?

25 MR. PRISLUPSKI: No, we're doing

1 much better.

2 MR. PADULA: You know, and Felicity
3 could speak to this. Some of the families get
4 behind with rent. So we raised the rent
5 recently. We have to do that. That's a HUD
6 mandate for us to do that. I think HUD passed
7 something out where we can't move out on a
8 family for 30 days. So speak to that a little
9 bit.

10 MS. SCHULTZ: I don't know if you
11 guys remember about a year ago we had a HUD
12 rule that we had to change our lease that we
13 had to give tenants a 30-day notice when they
14 did not pay rent. And so that would bring us
15 into the new month. It would just continue to
16 roll over.

17 HUD then I believe they got sued by
18 some state because it went against something in
19 their laws. So HUD revoked it, and now is back
20 to a 14-day notice. So we still have families
21 that are still on that 30-day notice. We're
22 starting November research this month.
23 November of last year is when the new lease
24 came out that turned it back to the 14 days.

25 So we should really start seeing the

1 the rents being collected and within the month
2 now as opposed to having to wait the 30 days,
3 take them to court, have 10 days to pay. You
4 know, you're really going into two months at
5 that point.

6 MR. PADULA: We could be more
7 proactive, like, within the 14 days, we could
8 start moving them. Hopefully, they come over
9 and pay or pay something on it and get onto an
10 agreement. We'll have to get a recert or do we
11 do it immediately on that?

12 MS. SCHULTZ: So some managers did
13 them all at once, the leases. So some
14 managers, especially when you have multiple
15 sites or a lot of units, it's easier to do it
16 at the recert. So last November was when the
17 new lease went out. So there might have been a
18 handful that didn't get that lease and then
19 they, like, at the next lease.

20 So every month, if they don't have
21 the updated lease, they have to sign a new one
22 at recert. There are a few families that do
23 kind of fall because they were either in like
24 court with them or maybe an emergency happened
25 where their recert is like could be disrupted.

1 There might be some November recerts that
2 didn't get them this -- like last year. That's
3 why it might be continued on into December
4 research.

5 MR. DORUNDA: How do you see
6 collectibles in general with the way the --

7 MR. PADULA: Rent cautions?

8 MR. DORUNDA: Yeah, does it seem
9 like it's pretty steady or stable? Are you
10 seeing an uptick in people --

11 MR. PADULA: No, we'll see that
12 we're owed more now. The managers are doing
13 the best they can. But we notice that they're
14 up. And the numbers are up as well too. Don't
15 forget our rents are a little bit higher. I
16 think John we have a month balance of what?
17 It's probably about a 100K it's up.

18 MR. PRISLUPSKI: Yeah, it's about
19 110.

20 MR. PADULA: So we're probably owed
21 now like \$110,000 throughout development.
22 That's not acceptable to us. We want zero, but
23 we know --

24 MR. PRISLUPSKI: Less than 60.

25 MR. PADULA: If our goal could be 60

1 or below, we'd be okay with that.

2 MS. SCHULTZ: We also do additional
3 steps, especially if there are elderly or
4 children involved. We reach out to resources
5 for them or give them resources. If they miss
6 one month, we might give them an opportunity
7 and give them resources to help and then if in
8 the next month it doesn't go on. That's why
9 these balances could also be higher.

10 MR. PADULA: It's going to be
11 ongoing. We're just going to watch it in the
12 office.

13 MR. DORUNDA: But we have a handle
14 on it.

15 MR. PADULA: Don't want to beat this
16 up, but if they do go into eviction then it
17 just could go longer and longer and longer. So
18 they are paying at the courts or they're not
19 paying, so those balances rise.

20
21 A motion to accept Resolution #4558 was made by Mr.
22 Wallis and seconded by Mr. Walker.

23
24 All members present voted in favor.

25 RESOLUTION # 4559

1 Authorize nominating Denise Delvecchio Assistant
2 Secretary to the Board of Commissioner.

3
4 MR. PADULA: We may have done this
5 with Johnny. That's what brought this up. So
6 I think we had something we couldn't sign. We
7 want to have a backup. Denise is going to take
8 that role. If Mark isn't here or something,
9 Denise could step up and sign for that. It's
10 standard that we keep progress going.

11
12 A motion to accept Resolution #4559 was made by Mr.
13 Wallis and seconded by Mr. Walker.

14
15 All members present voted in favor.

16
17 RESOLUTION #4560

18
19 Authorize nominating Executive Director as authorized
20 signer to the Board of Commissioner.

21 MR. PADULA: So while we were at it
22 today, Felicity had an another brainstorm
23 thinking that I should make another resolution
24 that I should be onto sign just for -- I may be
25 already, but we figure just to get it on the

1 record tonight. Same way if Mark is not here
2 and Denise isn't here, I have to take that role
3 just as a backup.

4
5 A motion to accept Resolution #4560 was made by Mr.
6 Wallis and seconded by Mr. Walker.

7
8 All members present voted in favor.

9
10 Old Business:

11
12 MR. PADULA: Okay. Data centers,
13 Mr. Walker.

14 MR. WALKER: Yeah, I had to testify
15 in court as to our opposition -- at least our
16 desire to intervene in the data center.

17 MR. PADULA: I thought we should
18 mention something about it just to keep the
19 conversation going on the record that we
20 intervened and Paul went down and did a great
21 job. He testified for the Agency.

22 If I'm saying this right, Paul,
23 correct me if I'm not; but the Court ruled in
24 our favor to be able to intervene on the
25 lawsuit. I just want to record it tonight. I

1 know Paul's on the phone. That is just what we
2 need to keep those conversations going. It's
3 our Jermyn site but they are talking about
4 Archbald name.

5 We also are going to look at the
6 Archbald site if they are being affected too
7 because we're trying to get our boundaries,
8 right, Paul, we mentioned that?

9 MR. WALKER: Yeah, we probably don't
10 have to petition to intervene. It depends on
11 how far along they are. We might be able to
12 just appear at the hearing. But I don't know
13 how far along they are yet.

14 MR. PADULA: Our tax credits, I just
15 want to mention that real quick that we're
16 still looking at our tax credits. I think it's
17 time that we have a really good work session or
18 meeting and we kind of hammer this down what
19 we're going to do here.

20 There's a developer that we've been
21 talking with. It's the Quandel Group. They
22 are willing -- and I'm saying this very
23 lightly. They're willing to build the
24 construction of it including the design, enter
25 into a memo of understanding or a land lease

1 with the Housing Authority being able to manage
2 it, receive a management fee from it.

3 But for over a period of time, they
4 would stay into that, like, a period of -- I
5 don't know the lease amounts. Where I have to
6 look into more -- John and I are actually we're
7 going to start working on this now, is like
8 procurement. Let me say one more thing -- and
9 they're interested in making it all
10 project-based vouchers, which we don't have a
11 problem with that.

12 We welcome that because we could do
13 a twofer on that. We could help our regular
14 program out for Section 8 as well. We'll keep
15 those numbers up. Everybody knows what high
16 numbers mean. High numbers mean higher admin
17 fee and higher half payments.

18 There's a lot of things we have to
19 look at in there. That's why I think we should
20 talk about this because I have a list and John
21 has a list we talked about today. Procurement
22 is something we need to discuss, including we
23 have to do --

24 MR. WALKER: Do we have to do
25 an RFP on that though?

1 MR. PADULA: I'm gonna jump on that
2 in a minute -- and also competitiveness on
3 those project-based vouchers. John and I,
4 starting next week, we started today, we're
5 gonna reach out to the somebody down in HUD
6 that we have.

7 And we're going bounce that up. But
8 that's why I didn't answer you about the
9 procurement end of it or the RFP end of it. So
10 we're going to make some notes. I'm going to
11 formulate an email if you guys have any
12 questions.

13 John and I are going to get with our
14 people in the HUD office. I don't know if it's
15 going to be at the regional office. It might
16 be headquarters. We're going to bring those
17 kind of questions back. We're going to air it
18 out through them first. I feel more
19 comfortable talking to them on our own, of
20 course, bringing you guys in or keeping you
21 up -- whatever you want to do.

22 I think that's the answer. And then
23 we could start with our legal. We could have
24 Jerry's team jump in if we need to be a
25 nonprofit or a 501c, whatever those words are.

1 But I think our big commitment right now is
2 procurement, project-based vouchers, how we
3 handle them, and exactly what Paul said, RFPs
4 and going out competitively.

5 We may have to go out competitively
6 and say, here's our RFP. We don't want to have
7 any construction costs to this thing.

8 MR. WALKER: There's lot of
9 discussions that have to happen as to ownership
10 and everything else.

11 MR. PADULA: Absolutely. Paul, do
12 you think that we should go out to HUD first
13 and have a conversation with those couple
14 things first?

15 MR. WALKER: Yeah, but they might
16 tell us to talk to your legal counsel. But
17 that's fine. I think we should go out to HUD.
18 Maybe we could schedule a meeting and go down
19 and talk to them.

20 MR. PADULA: That's even better.
21 And they may say go to your legal counsel. But
22 at least we pulled them in early. I want to be
23 transparent and pull them in as soon as we can.
24 We need to get our hands around this. John and
25 I will start talking. If we have to go down,

1 we'll go down, whatever we have to do.

2 Everybody good with that?

3 MR. WALKER: Yeah.

4 MR. PADULA: Okay. So Mike is here.
5 We'll just put that under Old Business, our
6 EPC. Mike, you're on.

7 MR. FENDYA: I don't have any
8 updates for you. That's Albright's job now.

9 MR. PADULA: On the EPC, I could run
10 this down for you guys. Mike, do you want to
11 add anything at all, like, how you feel the
12 program is going on your end?

13 MR. FENDYA: Everything seems to be
14 going very well constructionwise. I check in
15 with Tony periodically and, you know, the
16 regular hiccups here and there. Everything's
17 on schedule.

18 MR. PADULA: I could run down real
19 quick on the construction end of it. Our water
20 and lighting, Amp 32 is complete. We started
21 in Grant Street which is downtown Olyphant.
22 Our water submeters and transmitters are
23 complete into Blakely and Moosic.

24 We had to use some contingency money
25 to fix a water leak in Blakely. The combine

1 boilers in Throop are almost complete. They
2 moved out to Walsh Plaza, which will be the
3 next site. I think they started there this
4 week or last week. That's on the
5 combine -- that's the water heater and furnace
6 in one.

7 That's where we're going for the
8 high efficiency. Old Forge furnaces have been
9 started and remaining contingency money is
10 \$318,000. On these furnaces in Old Forge, I
11 have nothing in front of me, but we're
12 getting -- okay, so we install the furnaces and
13 they're kind of in the way a little bit of the
14 older hot water tanks.

15 There seems to me a little bit of a
16 hiccup with the design. If they have to take
17 them out, are we going to put the old water
18 heater back in? Out in the field we talked
19 about additional work being done installing
20 tankless water heaters in these 17 units. It
21 makes sense. But we're getting some pricing
22 and we're laying out that utility room a bit
23 differently.

24 MR. WALLIS: Are the rebates still
25 there though? There was a rebate on from the

1 gas company at one point.

2 MR. PADULA: We'll get all the
3 rebates back on the heaters and then the gas
4 company. It's something that we should
5 definitely entertain. Paul, do you agree on
6 that?

7 MR. WALKER: I think tankless is a
8 great idea. So you're not going to do the
9 combines. You're going to do tankless. I
10 think that's a great idea. But I think you
11 have to have the analysis as to with the rebate
12 and the savings and the cost, you know, how
13 much energy we're going to save with the
14 tankless. Do you know what I mean?

15 MR. PADULA: Yeah, we're in the
16 middle of doing a study now. I'm going to
17 answer this question but I'm not going to go
18 into detail. I don't quite know why we did
19 this. We put boilers down there though. We
20 didn't use the tankless furnaces. We used
21 regular boilers down there for Old Forge.

22 MR. FENDYA: Oh, I don't remember
23 off the top of my head.

24 MR. PADULA: There's some kind of
25 thing. That's why they're not a combine. But

1 now we're going back to that.

2 MR. FENDYA: Do they have boilers
3 there or furnaces there?

4 MR. PADULA: I'm not sure.

5 MR. FENDYA: It may be the case that
6 we're talking locations that have furnaces, not
7 boilers. So maybe you have a separate furnace
8 and a hot water heater. That would be one
9 reason why --

10 MR. PADULA: That's probably exactly
11 why the heaters are different. We'll dig into
12 that. And all of that would be -- Michael, you
13 could probably answer this. No matter what we
14 did would have to be energy savings.

15 MR. FENDYA: Yeah, if you do the
16 tankless water heaters there are certainly
17 energy savings. Tony Albright has all the
18 information on this, I'm sure.

19 MR. PADULA: He's doing a couple
20 different options for us --

21 MR. FENDYA: -- making sure that HUD
22 would approve of installing those. It needs to
23 make sure that it aligns with some of the scope
24 for one of the ECMs that we're already doing in
25 the project. And then it would be okay. It

1 will certainly achieve energy savings.

2 MR. PADULA: We'll do our due
3 diligence on before we do this.

4 MR. WALKER: The tankless is
5 probably two to three times the cost of the
6 regular water heater. Just do the analysis as
7 to this is what you're going to save over a
8 10-year period of time. That's all.

9 MR. PADULA: Exactly. Thank you.
10 John, do you have anything about the payments
11 or the payoffs coming in? Everything's going
12 well on that end.

13 MR. PRISLUPSKI: Everything's going
14 well.

15 MR. PADULA: And they are submitting
16 their bills on -- properly?

17 MR. PRISLUPSKI: Yes.

18 MR. PADULA: The bank is receptive
19 with you?

20 MR. PRISLUPSKI: Yes.

21 MS. SCHULTZ: We had to use some of
22 the contingency money for the faucets.

23 MR. PADULA: When we're going into
24 this apartments, we're finding things that need
25 to be done, leaky faucets, bathroom faucets are

1 leaking. A lot of plywood might be decayed or
2 rotted around the toilets. We're repairing it
3 when they're in the unit.

4 So here's how we're paying for that.
5 If it's part of the energy problem, a faucet,
6 whatever it may be dripping or whatever it is,
7 we're fixing that. We're using the contingency
8 money for that. If it's plywood or anything
9 like that, we're taking that from our capital
10 fund. It's contractor faucets. It's the one
11 we use. And there's savings, but everything
12 matches.

13 MR. WALLIS: When we are doing the
14 capital side, are we paying prevailing rate?

15 MR. PADULA: You shouldn't have to.
16 That's a great question.

17 MR. WALLIS: Just watch that because
18 that's just our money. That's general
19 maintenance, I'll call it --

20 MR. PADULA: Even for the
21 contractor's sake.

22 MR. WALLIS: We end up paying the
23 most. Contractor pays more, yeah --

24 MR. PADULA: Somebody else mentioned
25 that. They didn't mention that direct to me.

1 But I heard something about that. We're going
2 to find out about that. Very good. Thank you.

3 MR. DORUNDA: One question, if you
4 just give a quick recap of the stair project
5 how that ended up going, please?

6 MR. PADULA: The stair project went
7 great. It was quiet. This is Throop.

8 MS. SCHULTZ: That was completed.

9 MR. PADULA: We paid that out
10 already. That went really well. It actually
11 went -- Mark, they brought all the stuff built.
12 They put them right in. Something we didn't
13 expect, but we -- they had a soft sponge to
14 them, those steps.

15 We did get sued. Somebody fell
16 through them at one point. So that went really
17 good though. So that is complete. Our tenants
18 have a safer place to live with those steps.

19 MR. DORUNDA: Great. Thanks.

20 MR. PADULA: You're welcome.

21
22 New Business:

23 (None)

24
25 Report of the Executive Director:

1 MR. PADULA: So in your packet, I
2 don't know if you reviewed our occupancy for
3 public housing. We're just routine business as
4 usual. Some of the apartments -- I want to
5 remind everyone we're kind of doing -- I don't
6 want to say differently, but if apartments need
7 a lot of attention, we're running them under
8 the capital improvements.

9 So I think we have like two out
10 there now that they're doing. But when they're
11 doing them, we allocated certain dollars for
12 them where we think -- John fit it into our
13 capital budget.

14 We're drawing it down. We're
15 reconciling it as we're going with it. And we
16 think we have enough in there till calendar
17 year. We're working it through, but all good
18 stuff. They're getting a complete repair when
19 we go in there from cabinets to floors.

20 And we're treating it as a capital
21 improvement project that we're doing over a
22 period of time because we're doing one or two
23 at a time. We don't have to move any families
24 that way. We really have a handle on it
25 because when we first came out of the gate, I

1 wasn't happy with it. That's why I stopped it.

2 So now we really got a handle on it
3 where we say, okay, here's our contractors.
4 This is budgeted for it. This is how much
5 we're spending. We got our team up here and we
6 said, use this money wisely. Do what you could
7 in-house, but if you have to do it, do it.

8 It's not only just for an apartment
9 that has a lot of need. It could be for staff
10 on vacation, short staff, snow. Maybe we get a
11 lot of snow and our maintenance staff is tied
12 up all week on it. So what happens then when
13 they're doing that, our turnovers suffer.

14 The occupancy does never suffer.
15 And so we don't have to really slow down at all
16 this way. We're using it as a tool all the way
17 around. Denise, anything you want to add on
18 the occupancy?

19 MS. DELVECCHIO: No, I mean, we're
20 getting apartments. They're upgraded. There's
21 no apartments. I think we have 19 apartments
22 that we are getting. That's it. Nineteen
23 move-outs out of 1,000, 1,100.

24 MR. PADULA: The lists are huge, but
25 they're ready to rock. Denise, would you say

1 you're just waiting for the turnover process to
2 be done?

3 MS. DELVECCHIO: Correct. I have
4 people ready to go into them. We have them
5 approved, fingerprinted, ready to go in, just
6 waiting for the unit.

7 MR. PADULA: We're just trying to
8 turn them. And at one point, again, I know
9 nobody likes this, but where are we with these
10 lists? Are we going to keep them open? Are we
11 going to close them?

12 MS. DELVECCHIO: I just gave you the
13 list of how long our wait lists are. In
14 Dunmore, our studio list are almost up to 400.
15 Before you could never house a studio, now
16 we're up to 400 applicants.

17 MR. PADULA: It's 100 percent leased
18 over there. So if you get one apartment --

19 MR. DORUNDA: That's 399.

20 MR. PADULA: We'll talk about that.
21 I think if we do close it, I think we use the
22 language that we still have the ability to put
23 somebody under these circumstances. You could
24 leave that up to me, the Executive Director.
25 If you have fire victims, if you have somebody

1 in need because I hate making real hard, you
2 know, procedures and policy when life happens
3 here. We all know that. We could make sure
4 we build that in if we do something like that.

5 MS. DELVECCHIO: If anything, we
6 could leave the four bedrooms. The four
7 bedrooms aren't at max amount of applicants
8 yet.

9 MR. PADULA: And a lot of them don't
10 move out. That's where you spend most of the
11 money about the wear and tear that you see
12 those bills eight, nine, \$10,000 when we put a
13 contractor and turn them over, that's what they
14 are. They're the four bedrooms.

15 Section 8, 712 voucher leased. That
16 should be right on target where our funding's
17 falling, right?

18 MR. PRISLUPSKI: Right.

19 MR. PADULA: Really nothing out of
20 the ordinary there. They are processing -- how
21 are they doing with that number? They're
22 holding that number?

23 MR. PRISLUPSKI: Yeah, that's the
24 magic number.

25 MR. PADULA: Admin, fees are up. I

1 see we had a little error for this month. What
2 they did is, they gave us like \$38,000. Did
3 you notice how short it was?

4 MR. PRISLUPSKI: We usually get 10
5 more than that.

6 MR. PADULA: They said they made a
7 technical error, but we're going to receive
8 that back. We're good. I could report
9 something. I could go on and on. We're doing
10 better protocol inspections these last eight
11 months.

12 We have really good conscientious
13 inspector in here for Section 8. A lot of
14 deficiencies are getting written up. Staffs
15 could be getting a little frustrated, but
16 Frank's taking them through the process.

17 So if we keep her going like we're
18 going, we have her very well trained. And if
19 she keeps that going -- the way you look at
20 inspection protocols, you educate the
21 landlords, on the protocols. And as you
22 continue with consistent protocols and
23 inspection protocols, your inventory gets
24 better.

25 We're doing a lot of good work

1 there. I know she came back today. She was a
2 little frustrated. Get back with the landlords
3 do what you have to do. The repairs are
4 getting done. It's a good thing for the
5 program and the family.

6 Capital funds, so Lukasik Drive
7 building one is almost complete. We're waiting
8 receptacles and electric baseboard being put
9 in. We're cleaning the floors and moving onto
10 building two.

11 MS. SCHULTZ: After we get the
12 receptacles in, electric baseboards, then we'll
13 do the cleaning.

14 MR. PADULA: So that whole building
15 will be complete. Steve will bring the
16 families back in. We'll empty building two.
17 And we'll do the same process. I think there
18 is four buildings.

19 MS. DELVECCHIO: Actually building
20 two is going into building one. And then
21 they'll start that and then building three will
22 go into the building two.

23 MR. PADULA: Thank you. Nobody will
24 be without anywhere to live. Everybody will
25 have everything they need. But they all have

1 an option to come back and stay in these new
2 units. We even offered Section 8 vouchers.
3 And they said, no, we want to come back to the
4 new --

5 MS. DELVECCHIO: The kids are in the
6 same school district. The address will change
7 but they're still in the same.

8 MR. PADULA: Very good. Archbald
9 sidewalks, that could be where they're working.
10 70 percent are done. They look beautiful.
11 Here's what we did on that. What we did is,
12 Archbald Borough was doing a sidewalk
13 restoration. So we jumped on them.

14 We piggybacked on their procurement.
15 That's how we did that. We didn't have
16 Archbald sidewalks in there. But when we
17 looked at them, we know they were definitely in
18 need. By going this route we saved quite a bit
19 of money on the design alone. We said it's a
20 good cost. Let's do it. We built that into
21 our plan and that's what we're doing. I think
22 it's a hundred thousand.

23 Blakely high rise parking lot is
24 complete. We have a parking lot we outgrew.
25 We're outgrowing everything because years ago,

1 what do we know, nobody drove as much. And now
2 everybody has a couple cars. We had an area
3 that we owned. But now it became a parking lot
4 and became a hazard where we already had
5 somebody fall. We got sprung on that. We did
6 it. We made all parking and it's safe now for
7 the residents.

8 Jermyn electric, five buildings are
9 complete, three buildings to go. They're all
10 the family units. After the electric is
11 complete, the restoration phase will start.

12 Cole Village refrigerators, Dunmore
13 Appliance was here for a kickoff meeting to
14 measure. PP & L will keep rebates open for us.
15 We didn't do Cole Village in the EPC if you
16 recall that. We're giving them refrigerators
17 now through our budget.

18 And faucet replacement, EPC is
19 replacing faucets needed in the units which we
20 already mentioned. We donated three
21 refrigerators St. Rocco's picnic and the priest
22 thanks all you guys for that. We had some
23 really good refrigerators that came out of the
24 units and the church was in need. So we went
25 ahead and donated the three refrigerators to

1 the church. That was a donation from the
2 Housing Authority to St. John Paul II.

3 MR. DORUNDA: I have one question
4 that I haven't seen in a while. It was a line
5 item, see if we got it under control, a bed bug
6 line item in Kennedy.

7 MR. PADULA: We have two bed bugs
8 going on right now. It's just part of the
9 protocol. I could speak a little bit on it if
10 you want. We have a pest control service that
11 we go around and we do each unit four times a
12 year just for regular routine maintenance.

13 While they are in there we have them
14 check for bed bugs. A lot of the residents
15 don't want to let us know that there's bed bugs
16 because they get embarrassed or they think they
17 are going to get charged. We find out there is
18 bugs in there that way. And they do report it.
19 But we like to do our own preventative
20 maintenance as well. We found two.

21 We'll go in and do the treatment.
22 And that treatment is \$500. And it's spray or
23 however they do it. We have that in our
24 contract that that's a fixed rate of \$500.

25 MR. DORUNDA: It's a spot case.

1 MR. PADULA: No deep infestation.
2 Now, cockroaches we have some -- a lot going on
3 there all of a sudden. I have some pretty good
4 faith in this new company. I think we'll be
5 okay with that. It's almost calming down.

6 MS. SCHULTZ: I spoke to them.
7 Brian is the owner of the company. And if
8 anything goes wrong, he does reach out
9 immediately. We're in good contact with the
10 owner.

11 MR. PADULA: He missed an
12 appointment. I called him and I said, you
13 know, -- so the 911 went up. He was very
14 cautious of it. All good. Life happens. I
15 don't have anything else. Financial, anything
16 at all?

17 MR. PRISLUPSKI: We're doing our
18 year end. And we have our auditor. They
19 usually come like November, December.

20 MR. PADULA: When you say year end,
21 you're balancing out everything we did for the
22 year, but we try to stay on track of that
23 budget that we put in. We do the best we
24 could. And if there is four amps, one is doing
25 better than the other.

1 MR. PRISLUPSKI: If an amp is doing
2 well and one isn't, we're able to transfer
3 funds. There's five amps. Jessup is
4 considered it's own amp.

5 MR. PADULA: At the end of the year
6 we're going to put our books in live dollars
7 now and we're going to know that. But usually
8 they are all pretty good -- do you really ever
9 have to fung a lot -- fungability. That's a
10 HUD name. That's what they call it.

11 MR. PRISLUPSKI: Sometimes we do.
12 But it's normal. It's not anything excess.

13 MR. PADULA: Our health care, we met
14 with our health care people. We're six months
15 into the year. We're having an increase in
16 claims. We have quite a bit going on here this
17 year with staff members and family members.
18 Now, they're telling us that increases could be
19 coming, but don't panic on that yet.

20 MR. PRISLUPSKI: We're in consortium
21 with a number of other government agencies.
22 They gave us a five year history. And every
23 year we were doing well. When they say that,
24 they say that when we collected our premiums we
25 were like 60 to 70 percent of the premiums,

1 which is good.

2 This year because of everything
3 that's happened we're having a bad year. So
4 we're up around 120 percent. But over the
5 consortium, it's spread out. So in past years
6 when we're helping other authorities, this year
7 they may be helping us.

8 MR. PADULA: We also have stop loss
9 on each employee. So what happens with that
10 is, each employee has a dollar amount that they
11 hit. And we have loss insurance too on that.
12 So it's just what it is. That's why we have
13 it. We want to keep our coverage good for our
14 families.

15 We've had this before and we came
16 out okay. And there's something in our
17 contract that says if it goes up more than 10
18 percent, we could start taxing the employees on
19 that. So, like, more contributions. But we
20 try to hold off the best we could on that.

21 We know it's tough for everybody.
22 We'll look at that too. We'll also look to see
23 if we need to go directly to a carrier and
24 maybe not be in a consortium. We're really
25 going to air this out to see where we are.

1 They had me sign something that
2 they're able to get pricing from other carriers
3 direct to Geisinger, direct to Blue Cross,
4 whatever it may be. But it's expensive. We
5 have good coverage and we want to keep it for
6 our people and we just do what we have to do.

7
8 A motion to accept the Executive Director Report was
9 made by Mr. Wallis and seconded by Mr. Walker.

10
11 All Board Members present voted in favor.

12
13 Motion to Adjourn:

14
15 A motion to adjourn was made by Mr. Wallis and seconded
16 by Mr. Walker.
